WORLD'S FAIR EXCURSIONS

No Danger that They Will Result in a War on Rates in This Territory.

All the Roads Reported to Be Doing a Big Rusiness at Regular Prices .- June Report of the Big Four System.

Said a general passenger agent: "An impression is gaining footbold that the reduction of rates the roads leading to Chicago are to make on Saturdays from Indianapolis is the beginning of a rate war, and the remark is often made that rates will drop to \$1 before the war is over. There is no entting of rates, no fighting or ill will between the lines interested; it is simply carrying out a programme arranged some weeks ago, except that it was then proposed to alternate between the roads in running these Saturday trains at lower rates; now all take a hand in the business. The lower rates will not be in force any other day any other trains while the world's fair is in progress. As it is the railroads are pressed for engines and coaches to handle the business, and it is unreasonable to expect that so long as such are the conditions the companies will throw away revenue to accommedate patrons who do not seriously object to paying present rates. I think the world's fair travel has but just begun. At the present cost of transportation our trains are filled and so far as the rates are concerned there is no good reason for believing there will be any material reduction from present figures, except on occasions like that of to-night, when cheap excurgood, safe coaches will be used, but in the making up of trains, of course, there will not be the effort to have the best that the company can afford, neither will there be chair or sleeping cars on such trains other than those run on the regular trains."

June Passenger Business of the Big Four, In June there were handled on the Big Four lines a total of 592,286 passengers, by divisions as follows: Chicago division, 148,154; Cincinnati division, 101,595; St. Louis division, 68,666; Indianapolis division, 54,741; Michigan division, 45,679; Cleveland division, 41,767; Whitewater division, 31,-460: Cairo division, 30,982; Sandusky di-vision, 21,910. On the Peoris & Eastern, which is not included in the above statement, 52,383 passengers were carried.

June Business.

There were transferred over the Belt road last month 59,073 cars, against 64,590 There were handled for industries lo-

cated on the Belt road swiches, last month, 2,575 loaded cars. Belt road engines handled at the yards last menth 3,615 carloads of live stock,

against 4,146 in June, 1802. The Big Four received and forwarded at its Indianapolis yards in June a total of

49,889 cars, 39,249 being loaded. The receipts from sales of tickets at the Union Station, last month, were nearly \$21,000 in excess of those of June, 18:2.

There were handled at the city freight depots of the Big Four in June a total of 7,889 carloads of freight, 4,153 outbound and 3,386 inbound.

The baggagemen at the Union Station handled, last month, 47,310 pieces of baggage, against 37,000 in May of this year and 42,108 pieces in June of 1892. In June the Vandalia brought into In-

dianapolis from Southern producing points 622 carloads of fruits and vegetables. This includes the shipments in here of bananas

In June there were handled in the city freight depots of the Pennsylvania lines 48,092,403 pounds of freight, representing 4,502 cars, against 45,397,158 pounds in June, 1892, representing 4,145 cars. Last month there were handled by the

Peoria & Eastern eastern division 3,939 loaded cars; western division, 4.173 loaded cars. This is the lightest month's business the western division has done in any month of the last ten years. In June there were received and for-warded at Indianapolis a total of 95,278

cars, 76,006 being loaded. In June, 1892, there were handled at this point a total of 103,872 care, 82,788 being loaded. The percentage of empty cars, as compared with the total, was much lighter this year than

In June there were handled on the Big Four system 114,758 loaded and 37,368 empty cars, making a grand total of 148,126. On the Peoria & Eastern, western division, were bandled 9,406 loaded and 2,835 empty cars; on the eastern givision, 6,135 loaded and 2.839 empty cars, making a total of 15,541 loaded and 5,234 empty cars handled on the Peoria & Eastern last month.

Personal, Local and General Notes. Frank S. Divine, contracting agent of the Big Four at Chicago, spent the Fourth in this city with his parents.

Edward Cost, assistant general freight agent of the Big Four, with headquarters at Chicago, spent the Fourth with friends in this city.

Chicago travel was yesterday the lighest. it is stated, over all the lines of any day in the past month. Local travel, however, was unusually heavy, large numbers of people availing themselves of the low rates. The remains of J. B. Stanton, the conductor killed on Sunday last on the Santa Fe road, arrived in this city yesterday afternoon, accompanied by his wife and a delegation of conductors off of the Santa Fe. At the station the funeral party was met by a delegation of the Indianapolis Division of the Order of Railway Conduct. ors, and the remains were taken to Crown Hill for burial. The deceased was a member of the Indianapolis lodge of the Order of Railway Conductors, and was formerly employed on the Monon.

TWO POLICEMEN SUSPENDED.

They Were Too Accommodating to a Prisoner and Allowed Him to Drink Beer.

At roll call, last night, Police Superi tendent Colbert suspended from duty patrolmen McClellan and Tomlinson, the suspension to continue until an investigation into the charge "neglect of duty" may be made by the police commissioners.

The charges against the officers were made yesterday morning by two prisoners before Judge Buskirk. The men, Pat Hines and George Ford, alleged that while under arrest, Monday night, the patrolmen allowed them to go into a saloon and drink beer. The officers do not deny the charge, but plead that they were helpless to prevent the act on the part of one of the prisoners. They arrested Hines and Ford on Michigan avenue, Monday night, for intexteation and insulting ladies, and while awaiting the arrival of the patrol wagon Ford asked the privilege of purchasing a package of eigarettes at a drug store. The officers accompanied both prisoners to the store, out found no cigarettes, and were then asked by Ford to step into Snyder's saloon, on East Washington street. Ford bought his cigarettes, and while both officers were watching his movements Hines was given a glass of beer by the bartender, and drank the beverage

before he was discovered. Both officers have long been on the force, and have never before been called on the "carpet." They are considered reliable and industrious, and their friends hope for a speedy reinstatement.

Maner Heavily Fined. George Mauer, the West Indianapolis man who assaulted Dave Trangett and wife in the latter's saloon, Monday night, was called before Judge Buskirk yesterday morning. Mrs. Trangett appeared and testified that the prisoper struck her with a pool ball instead of a cue. Mauer was assessed a fine of \$180 and sent to the workhouse for six months. At the expiration of his time be will be tried for assault on Traugett.

Seeking His Runsway Daughter. On the night of June 26 Miss Allie Coombs. aged eighteen, left her home at Hamilton, Q. She did not return, and her father, Jo-

seph Coombs, is in the city looking for her. It is thought she is here as she packed two large trunks and had them checked to indianapolis. She had no apparent cause for leaving home, and being a young lady of handsome appearance her parents are greatly alarmed over her disappearance. Her father proposes to remain in the city until the police learn something of her whereabouts.

A PLEA FOR CONSISTENCY.

Republicans Should Advecate Protection for Silver the Same as for Other Interests.

To the Editor of the Indianapolis Journal: Having been a lifelong Republican and constant reader of the Journal, I would like a little information. In the last national campaign we were told by the leading journals of both old parties that the tariff was the leading and all-absorbing issue, and that when it was settled all else would follow as a matter of course. Now, within less than one year after the election, it seems, by common consent, that the tariff has practically dropped out of sight and another 'issue," that was last year said "not to be in it," has so absorbed the public mind that we find the great tariff-reform President calling an extra session of Congress to convene in inidenminer to pass some measure of relief in matters of national finances. The strangest part of the situation to me is the general condemnation by all the leading journals of both parties of the "Saerman law." This condemnation is not confined to the Democracy, but is joined in by our own party papers. Why should a law that has been in force for several years become suddenly the cause of our present distress. Neither party made it an issue last campaign, and yet both seem now to be laying the present ills at its doors. That law was, understand at the time, a Republican measure, passed by a Republican Congress and signed by a Republican President; and not only that, but bears the name of our greatest financial chief. Why should we now turn upon and help our enemies to rend it? Can nothing be said in its favor! le it not in accord with our boasted policy of protection to and the upholding of a great American product! If not, why not! One of our great party shibboleths has

been that we are for Americans, and intend to protect our manufacturers without asking England or the Cobden Club as to how or when that shall be done; but when it comes to the product of our mines must we, as we have accused our political enemies of doing, knuckle to England, Lombard street or the Cobden Club? Can we expect Europeans to use a product of our country that we are constantly apologizing for the use of in this country, and doing all they ask us to do to belittle it? How soon or rapidly would we succeed in introducing into foreign countries our Indiana corn if we told such countries we had to use it because it was one of our great products. and we had to use it to pacify our people in the portion of our country which produces it? What consistent position can our party take other than that we will uphold and protect all American products, not only of the field and workshop, but of the mines? We have done it for our coal miners and tin mines, why not for the great silver mines? And this, too, not by a protective tariff only, but by use as a medium of exchanging the other products of our common country? Money is nothing but a medium of exchange, a carryall which must be used to produce wealth. Have we no settled policy as a party on financial questions? Are we now going to join the Democratic party in a raid upon an important and extensive industry, or are we to supersede the Democratic party as the party of negation? Let us have some old-time vigor and nerve in taking an advanced position for all American products, and do as we have heretofore done on the tariff-dety the Corben Club and all Europe. It is a poor rule that protects one class of interests and lets others be trodden under foot.

INDIANAPOLIS, July 3. A. C. PICKETT. THAT SILVER SAFETY VALVE.

The Recent Intimation that It Might Be Used and the Effect It Had on the Country.

To the Editor of the Indianapolis Journals Your correspondent "Publius" has read. current events to little purpose if he has not noted the fact that his theoretical idea of a silver "safety valve" did not work practically, but, on the contrary, came near causing a tremendous explosion very recently. Some four or five weeks ago Secretary Carlisle gave out that he would do the very thing "Publius" suggests-pay in silver treasury notes assued in the purchase of silver. On that very night and the next day more than a hundred telegrams were received at Washington from prominent bankers and others from New York, Boston, etc., strongly protesting that such a policy would bring on worse than a Black Friday, and cause such a panic as the country has not seen. Three days after Mr. Carlisle's threat to pay in silver, President Cleveland was prominently quoted as saying that his Secretary had been misunderstood, and that these treasury notes and other government paper would be paid in gold on demand, as had been the custom. It is singular that a reader of the daily news could have overlooked these things, or so soon forgotten them. Of course the large number of telegrams and letters referred to were not specially mentioned, but the other facts were very specifically. But all the same it is true that numerous and alarming telegrams and letters were quickly received at Washington as stated. A hurried convening of the Cabinet, and the announcement by the President went by wire to New York, and, while this quieted the fears and panic there, it was the beginning of what has since transpired all over the country in the way of stringency, loss of confidence and money hoarding. The incident called fresh attention to the provision of the law that allowed what Mr. Carlisle proposed to do. Bankers, of o urse, knew this feature of the law before, but, like the dead laws against burglary in this city, no attention was paid to it. But the mere hint to enforce that silver redemption feature contributed to the subsequent panic, and, what is worse for Mr. Carlisle, has destroyed whatever prestige he had as a great financier. Whoever attempts to work that "safety valve" on New York will soon feel like wishing he had never been born, or, at least, if a prospective candidate for the presidency, tnat he had never accepted the secretaryship of the treasury. Indianapolis, July 4.

An Offensive Sawer. To the Editor of the Indianapolis Journal: The sewer from the Central Hospital for the Insane, emptying into Little Eagle creek, north from Washington street, is, and has been for a long time, in a very foul condition, and the offal deposited in this sluggish little stream has become a pestilence-breeding spot. I understand that the last Legislature appropriated \$10,000 to build a sewer leading and emptying into Big Eagle creek. If this is so, the people here would like to see the "business administration" at the hospital build said sewer at once. I would respectfully and earnestly call the attention of Ur. Metcalf to the condition of things of which I write and urge him to take action at once. CITIZEN OF MOUNT JACKSON. MOUNT JACKSON, July 4.

"Freedom of Worship" in Russia.

George Kennan, in the July Century. If the Savior himself should appear, poor and unknown, in a Russian peasant village. as he appeared in Galilee nineteen centuries ago, if he should speak to the people the same words that he spoke in Galilee and that are recorded in the four Gospels, he would not be at liberty twenty-four hours. He would first be handcuffed and sent to the pale of settlement by stape as a Jew and then, if he continued to teach, he would be rearrested and thrown into prison. If he finally escaped cractfixion at the hands of the holy orthodox church which bears his name, it would be only because crucifixion has been superseded in Russia by exile, incarceration in the "hereite cells" of remote monasteries, and deportation to

the mines of the Trans-Baikal.

"ADMIRAL" Is not a tramp eigarette, but has wen public favor by virtue of surpassing excellence.

THE

INDIANAPOLIS JOURNAL.

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to

make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

portation. The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having

a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the correspondents, and Jurnishes careful

supervision for each department. The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispensable in every well-regulated family.

The Weekly Journal, at \$1 per year. contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sentppl on ai
